

# Feeling Under the Weather?

## Journey of Faith School Illness & Sickness Policy

If your child is sent home for any of the following, they must stay home the following day and be symptom-free the next full day.

- No fever higher than 99.7 for 24 hours
- No flu-like symptoms
- No constant cough
- No colored mucus
- No contagious diseases
- Throw up at school
- If your child has two diarrhea incidents at school, they will be sent home and need to stay home the next full day

A written doctor's clearance must be turned into the office before a child will be allowed to return to school.

- If they have had or currently have been suspected of having:
  - a communicable condition
  - a prolonged illness five days or more
- The note must include the name of the condition or illness, any medication given for it, and clearly state that the child is not contagious
